

Deauville Beach Transition FAQ's

1. Why is the state assuming management of Deauville Beach from the City of Rehoboth?

The Delaware Department of Natural Resources and Environmental Control initially leased 21.56 acres known as Deauville Beach to the City of Rehoboth Beach in 1975. Deauville Beach includes approximately a 600-yard section of state-owned beach between the northern end of Rehoboth Beach and the Henlopen Acres. The original lease was extended multiple times, with the most recent 10-year lease including a one-time fee of \$2,500, which expired June 30, 2023.

The DNREC Division of Parks and Recreation (Division) had worked with the city on a new lease with a provision that included a percentage of gross revenues generated from daily entrance be returned to the state. An agreement was not reached, and DNREC and the City of Rehoboth Beach mutually agreed that the Division would assume management responsibility of the state-owned property in 2024 to include providing lifeguards, parking, beach concession, tennis courts, public restrooms and beach maintenance. Deauville Beach will become part of the Cape Henlopen State Park management unit.

2. What will be the cost to park at the Deauville Beach parking lot?

Daily and weekend entrance fees remain unchanged from what the City of Rehoboth charged in 2023 at \$15 for weekdays and \$20 for weekends.

DNREC will also have a Deauville Beach annual pass for \$115; those who have a Delaware State Parks annual pass, lifetime pass or surf fishing permit will receive a \$25 discount making it \$90 for the entire fee season.

Walk-ons and bicyclists will continue to use the beach without paying a daily entrance fee.
